Part II. Shelf list of catalogued items.................................................................

Part III. Magic lantern slides...............................................................................
INTRODUCTION

The Elizabeth Bass Collection on Women in Medicine was donated to the Rudolph Matas Medical Library by its creator Dr. Mary Elizabeth Bass (1876-1956). Dr. Bass was a 1904 graduate of the Woman's Medical College of Pennsylvania and one of the first women physicians on the faculty at Tulane University School of Medicine. She began her career at Tulane in 1911 as Assistant Demonstrator in Surgical Pathology three years before women were admitted to Tulane as medical students. She retired in 1941.

She came from a medically prominent family in Mississippi. Her brother Charles Cassidy Bass was Dean of Tulane Medical School from 1922 to 1940, and her sister Cora was also a doctor. Elizabeth Bass was very active in professional organizations. She was the first woman admitted to the Orleans Parish Medical Society, the first woman to hold one of its major offices (secretary 1920-1922, vice-president 1923) and editor of its Bulletin for a number of years. She served as president of the American Medical Women's Association (1921-1922) and founded its New Orleans group. She was the first woman chairman of a section of the Southern Medical Association, the Section on Pathology, in 1939. In 1952 she received the Alumnae Achievement Award of the Woman's Medical College of Pennsylvania, and in 1953 the Elizabeth Blackwell Centennial medal of the American Medical Women's Association.

Through her contacts and associations, she collected a vast array of materials pertaining to women in medicine. This collection consists of newspaper clippings, pictures, photographs, glass magic lantern slides, books, medical school catalogs, etc. There are approximately six filing cabinet drawers of clippings, pictures and photographs, eight shelves of books and catalogs, and four small boxes of glass magic lantern slides.

Over the years, several people have worked on the collection beginning with Vera Morel, a well known medical illustrator. She was responsible for indexing the clippings, pictures and photographs sometime in the 1940's. Her index was done on catalog cards and included number, type and location of items on each individual (i.e. Abbott, Maude. 5 clippings, 3 pictures, 1 photograph, File Folder A-1). In 1978-1979 the index and shelf list of cataloged items were redone in a list format by Teresa Baldoch, a library secretary, in response to requests for information on the collection from people who were unable to come and scan the card files themselves. The resulting list of clippings and photographs was an abbreviated version of Ms. Morel's index in that it included only the name of the individuals discussed or portrayed and not the number, type or location of the materials.
In the years since Ms. Morel did the original index, some items have been lost or damaged so in 1980-81, Cindy A. Young, a library assistant, undertook an inventory of the clippings, pictures and photographs and magic lantern slides. She produced revised lists of these materials, file by file and slide by slide. Consequently this guide to the Elizabeth Bass Collection on Women in Medicine is the result of the combined efforts of all three of these women.

The guide is divided into three parts: I. Guide to the clippings, pictures, and photographs; II. Shelf list of the cataloged items; and III. List of the magic lantern slides. Part I is an alphabetical listing of the subjects of the clippings, etc. file by file. Detailed information on the number and type of material concerning a particular person or persons listed in Part I will be supplied upon request. Xerox copies of materials in Part I may also be requested on interlibrary loan at a minimum cost of $3.00 per request.

Very few items in Part II and none in III circulate on interlibrary loan, but they may be used in the library from 9 to 4 Monday thru Friday.

Cynthia H. Goldstein
Chief of Technical Services
